One more question Roger. What should the cost org. be for this one?

Thanks,

All,

Please let me know what the correct site code is for this at your earliest convenience so that we can process the payment on our end. Right now, this transaction is in limbo because we don't have a good site code from MT DEQ. If they are not allowed to charge to this site, then we will need a revised reallocation spreadsheet from the recipient.

Please contact me if you have any questions.

Thanks,

Should we allow charging by the RI/FS code (CO) and operable unit (OU1)?

Roger & Danette,

Do either of you know what the site code should be for "Columbia Falls Aluminum" for V-96822401. Karen submitted a reallocation spreadsheet and has only "A882" for this site, which is not a complete site code. Any assistance either of you may be able to provide would be most appreciated.

Thanks,

Hi Brian!

Sorry, I don't have anything better at this time. That was what I found on the EPA website -- it is a proposed site.

Hi Karen,

For the spreadsheet to V-96822401, what is the complete site code for Columbia Falls Aluminum? I see where it says A882 but that doesn't appear to be a complete site code. Please send me a corrected spreadsheet at your earliest convenience.

Thank you,
